### Assessor Achin Saves Three From Drowning

#### TAKE SAMPLES OF RIVER WATER TO DETERMINE EXTENT OF ITS POLLUTION

Investigators of State Department of Health Spend Day in Survey of Water Just Above Pawtucket Dam—Action Part of Agitation for New Merrimack Valley Water Supply

With a view to determining, as near as possible, the amount of pollution in the Merrimack river in this city, State Inspector W. E. Merrill and a staff of assistants from the state department of health, made a 24-hour survey of the river water in the vicinity of the Pawtucket dam yesterday. The official investigators came here Saturday night, established headquarters at the hotel-house of C. H. Jones, and took a series of readings at given intervals during the night and yesterday. Their report, according to Mr. Merrill, will not be available before the end of the year.

#### NO VERDICT YET IN DELORME MURDER CASE

MONTREAL, July 23.—Adelard Delorme, former Catholic priest, accused of having murdered his half brother, Raoul, today expected to learn his fate from the jury which heard the evidence against him.

The jurors got the case into Saturday and yesterday, notified Chief Justice Sir Francis Levesque that they could not agree. They were sent back to deliberate with a stern rebuke from the court, which contended that their attitude was imperiling the whole jury system.

The jury again reported this morning that no agreement had been reached. Sir Francis sent it back and returned court till 2 p. m.

The judge reminded the jurors that if no definite verdict was reached, the case would have to be retried at the next session, with additional expense. Sir Francis said the case already had cost the people \$50,000.

#### BIG WELCOME FOR JOHNSON

U. S. Senator From California  
Returns From European  
Trip on Leviathan

2000 Cheer as He Arrives at  
Battery—Refuses to Dis-  
cuss Domestic Politics

NEW YORK, July 23.—United States Senator Hiram Johnson of California, boomed by his friends for the republican presidential nomination in 1924, returned from a tour of Europe today on the Leviathan, refusing to indicate to reporters or the crowds who gathered to meet him, whether his hat was in the ring.

Johnson enthusiastically professed to see two good omens in the incidents of the home-coming, however. One was the fact that in the little fleet of craft that went down the bay to meet him, was the tug Monomine. The other was the fact that while he didn't shy his hat into the ring, a capstone wind shield it for him into the bay.

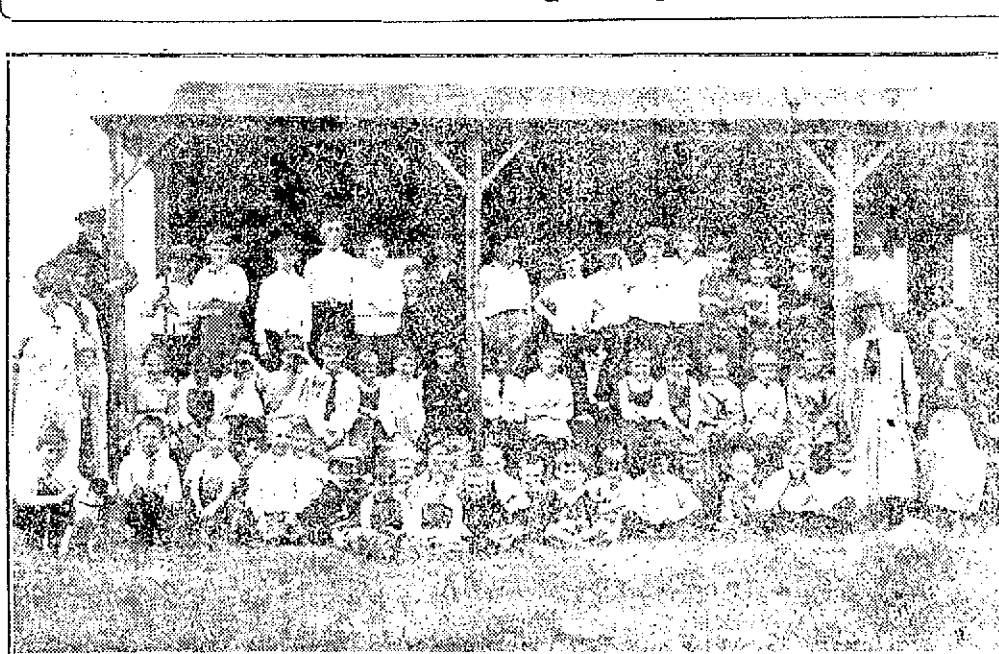

"The senator only laughed, however, when he was asked to comment on the omens, and declared:

#### STREET DEPARTMENT MEN REDISTRIBUTED

A redistribution of men in the street department occurred today, and while the change was not extensive, it is believed it will result in a more efficient and more prompt response to calls for assistance in the future.

City Engineer Stephen Kearney, who ordered the change, after consulting the approval of the public service board, said it did not include any new men, but was in the nature of a "reshuffle" with several men being transferred to activities in which they seemed more suited.

"I have reason to believe the changes will improve conditions considerably," was his comment, "and if the need arises I will recommend more of them in the future."

It is Engineer Kearney's belief that

## CELEBRATION OF HOLY YEAR

Exhibition to Show Progress of Catholic Church in Evangelization of World

Church Going Hand in Hand With the Development of Science

ROME, July 23.—(By the Associated Press).—An exhibition to show everybody that the Roman Catholic church in its evangelization of the world is going hand in hand with the development of science and that its missionaries are applying the latest scientific discoveries at the same time they are saving souls, will be included in the celebration of Holy Year in 1925.

Cardinal Gaetano Nasrissim, prefect of propaganda, is studying instructions given him by Pope Pius in which the pontiff outlines his idea of what the missionary phase of the celebration should display. Pope Pius expressed the desire that the scientific part of the exhibition be one of the most important presented.

All the scientific material gathered for the exhibition will be deposited in the Vatican library after the celebration to comprise one of the most remarkable documentary collections in the world.

One of the most attractive features for the general public will be placed in the Vatican garden where the various nations of the earth will be represented in native environment by natives brought especially to Rome showing the customs and modes of living from the Arctic to the Equator to the Antarctic, from the Indians to the Japanese.

The pontiff plans that the exhibition contain maps of the remote regions in the world and data from the Vatican observatory showing the results of its studies and all other information that the papal sources have gathered in missionary, flora and fauna from the four corners of the world.

## SALISBURY WOMAN FREED BY MISTAKE

SALISBURY BEACH, July 23.—When Chief of Police Harold P. Congdon and Inspector Pierce of the local police force arrived here from Newark, N. J., last night, they did not have in custody Mrs. Victoria Doane, the young mother who is charged with having abandoned her two small children in a Roxbury doorway last Monday. Through a misunderstanding, the Newark authorities allowed her to go after she had been arrested.

Chief Congdon did have in custody, however, Mrs. Alice Brown, thought to be Mrs. Doane, who is charged with being idle and disorderly. She will appear in Aylesbury district court today. It is expected to answer the charges.

Chief Congdon was indignant over the Newark police allowing Mrs. Doane to go free, as he had communicated with the authorities to the effect that both women were wanted in Salisbury. The Newark officers said they had been notified by the Boston police that Mrs. Doane was not wanted. Every effort is being made by the Newark authorities to correct the mistake, and although it is understood that the woman is on her way south, the police believe that she will be interested.

The two children of Mrs. Doane, one a 2½-year-old boy, and the other a girl of five or six months, were found in the doorway of the house at 18 Shepherd Avenue, Roxbury. Residents said they had seen two women drive up in a green automobile, leave the children in the house and then disappear. The children were later identified at the Chardon street home by the grandmother, Mrs. Alta Jack of 287 Humphreys street, Swampscott. Their father and husband of Mrs. Doane, is Roger Doane. He told the police that this is the second time that he and his children have been deserted by Mrs. Doane.

## ABANDON PLAN TO CALL ATTY. GEN. DAUGHERTY

WASHINGTON, July 23.—Consent for the defense in the trial here of Charles W. Morse and others on charges of wartime shipyard frauds, continued their presentation of evidence today after abandoning their plan to call Attorney General Daugherty to the witness stand.

Decision not to call the attorney general, who had been summoned to testify today, was announced yesterday by the defense attorneys, who, however, gave no reason for the switch in plans. The summons for Mr. Daugherty was issued last week and mailed to the United States marshal at Columbus, Ohio, where the attorney general has been for several weeks. The defense attorneys at that time, declined to indicate what line of evidence they intended to develop.

M. Schwab, former director-general of the Emergency Fleet corporation, whom the defense had announced might be summoned also probably will not be called, it appeared certain that the defense would complete its testimony by the middle of the week. Several days then will be required for the government rebuttal.

were the other places where the sharp shocks were reported felt.

### Heavy Damage at San Bernardino

In San Bernardino the Hall of Records, a building in the courthouse group, was badly damaged, tons of rock being torn loose from the walls. The falling debris crashed through the roof of a rooming house adjoining, critically injuring George R. Fisher, who was sleeping. Other roomers were thrown into a panic and rushed into the street, partly clothed. Plate glass windows in a number of business establishments were shattered. Walls of numerous buildings and sidewalks were cracked. Telephone communications were cut off, adding to the pandemonium. Street

lights went out when a number of wires went down.

### Chimneys Tumbled Over

Chimneys on residences throughout the city tumbled over. A pall of dust from falling bricks hung over San Bernardino for five minutes after the first shock. At the Southern California state hospital at Patton, where approximately 2500 patients were quarantined, the shock rocked the buildings. In one wing, much plaster fell. The patients were terrified but were quieted by attendants. Several smaller buildings were damaged. No one was injured.

### Burglar Alarms Set Off

At Redlands plate glass windows in

many stores on streets running east and west, were broken.

All burglar alarms in the Hollywood district of Los Angeles were set off by the earthquake, police said.

Plaster fell from the walls of a sixth street restaurant in Los Angeles and the diners started to run from the building but the leader of the orchestra reassured them.

### Prisoners Panicked Stricken

The prisoners in the Los Angeles and the county jail were panicked. A message from San Jacinto, which city was badly damaged in 1918, said the damage there was not serious.

## \$150,000 FUND FOR PHONE GIRLS

Letters Recommending Assessment on Every Union Member in Mass. Sent Out

Action to Aid Strikers Decided Upon by Central Labor Union Representatives

Strike Leaders Prepare to Continue Strike With Renewed Energy

BOSTON, July 23.—Letters recommending an assessment of at least 50 cents on every labor union member in Massachusetts to raise \$150,000 for the aid of the striking telephone operators of the New England states, were to be mailed today in 5004 local unions by the secretary of the state branch of the American Federation of Labor. Included in the letters will be instructions to appoint working committees whose duty it will be to induce persons in communities affected by the strike to urge men and women employed as operators by the New England Telephone & Telegraph Co. to give up their positions.

As a result of the action to aid the strikers which was decided upon at the meeting of Central Labor union representatives in Worcester yesterday, leaders of the strikers prepared today to continue the strike with renewed energy. Two conferences last week at which the company offered to take back as many operators as there were vacancies at their old wages with restoration of benefit privileges at the end of a year but with the loss of seniority rights failed to accomplish a settlement.

Approximately 3500 girls walked out on June 25 after the company refused to raise wages and shorten the working day to seven hours.

Company officials stated today that no further conference had been arranged for and that service conditions, reported nearly normal Saturday, were unchanged.

### ON FIVE DAYS A WEEK

LUDLOW, July 23.—The Ludlow Manufacturing Associates, manufacturers of June products, employing about 2600 persons, today cut the working schedule to five days a week, a reduction of half a day. The reduction is expected to continue through the summer.

## Towns Deprived of Water For Day

RANDOLPH, July 23.—The break in the water main connecting the towns of Randolph, North Randolph, Brookville and Holbrook with great pond, the chief reservoir, which yesterday deprived these communities of drinking water and fire protection, had been repaired today. The situation was aggravated by the fact that another reservoir, a part of the joint system, was already out of commission.

## BIG SELLING MOVEMENT

Opening of New Board Room of Cotton Exchange Witnesses Heavy Business

NEW YORK, July 23.—The opening of the new board room of the cotton exchange this morning witnessed the heaviest business in many weeks, with a smash in prices that carried the level of leading positions off 60 to 70 points, or \$3 to \$3.50 per bale, under closing prices last Friday.

A break in the Texas drought was largely responsible for the big selling movement as traders believed that the crops in that state show material improvement with an effect that might be noted in the next government report.

Considerable southwest hedge selling also featured the first four's trading.

## \$1,000,000 TURNED OVER

One of Largest Claims in Connection With Seizure of Alien Property

WASHINGTON, July 23.—More than a million dollars was turned over by the alien property custodian today to the estate of the owners of the chemical firm of P. Beiersdorf & Co., of Hamburg, marking one of the largest claims paid by the government in connection with the seizure of alien property during the war years.

## WILL RE-ISSUE THE "LOWELL DIGEST"

The chamber of commerce is preparing to re-issue the "Lowell Digest," which was last published in 1916 by the board of trade, and is now making a survey of industries of the city for advertisers to defray the cost of publishing this book.

It is planned to make the re-issue even more complete in its detailed, tabulated information on Lowell, its business and industries and in addition it will also serve as the chamber of commerce book containing the list of members and other salient facts about the organization.

The publication depends entirely upon the desire of local business houses and industries to be represented in the booklet and there is no desire on the part of chamber officials to make it a money-making proposition. If sufficient advertisements are received, 3000 copies of the book will be made for distribution in and around Lowell and strategic points throughout the world.

PERFECT PROFILE

This is Carlotta Monterey. Penryn Stanlaws, the artist, says that she has the best profile in America and that she is one of the 11 most beautiful women in the world.

BETSY GRAVES RAYNEAU

skin and rosebud mouth on canvas doesn't interest me at all. I'd rather paint disappointment or bitterness, or craftiness, or any personal quality which is a definite attribute of character and may be the very thing that detracts from conventional beauty or regularity.

### Beauty With Beauty

That started us talking about the modern type of woman that is being developed by the complex existence of today.

"As women become more intellectual they should improve in looks," Mrs. Rayneau averred. "Brains actually mean a better skull formation. And I believe men will acquire a taste for intelligent women. But after all, whatever type women progress to or revert to, men will always have to accept them as they are. They are so necessary in the race, no matter what they become."

"The beautiful woman will always have the advantage at the start, and the brainy one at the finish."

"I have found that most beautiful women were not intellectual, not because they didn't have the capacity, but because they did not have to. They could get all the excitement they desire without exerting themselves for it."

### Personality Instead

"The woman, however, who looks into her mirror and sees that her Irish nose, Italian eyes, English chin and German figure form a composite type that has no claim to beauty, and who admits frankly that since there isn't much to attract men with on the outside she'd better develop the inside of her head, is the one that grows a personality."

"And she's apt to get more interesting as the beauty deteriorates."

Mrs. Rayneau is a thorough feminist and believes in women and their possibilities. She believes they have everything now but recognition.

"And when women can get a slant on life that is not purely emotional, or that is a combination of intellect and emotion, with the intellect holding the emotions down where they should be, they will force men to recognize their worth and give them their rights in the artistic world," she concludes.

## BRAINS IN RACE WITH BEAUTY

BY MARIAN HALE  
NEA Service Writer

NEW YORK, July 23.—In the fight for woman suffrage, Betsy Graves Rayneau of Detroit was one of the most earnest and interesting leaders. Today she is quite as distinct a personality in the artistic world.

Her portraits are exhibited at the most exclusive Fifth Avenue art galleries, and celebrities flock to her studio.

"They're so different," critics say of her art studies.

"That's because I try to make each portrait a character study," she told me. "I try to do with a brush what Theodore Dreiser does with words. I study my sitters as if I were going to write about them instead of paint them. That's the reason I care very little for doing merely pretty women."

"Just putting a pink and white

## REDS OPEN AT HOME, WHILE GIANTS MOVE TO PHILLIES' BANDBOX

**Major League Fans Watch Cincinnati Runner-up in National League Pen-nant Race—Yankees End Second Invasion of West With Record of 12 Victories in 18 Games**

NEW YORK, July 23.—Major league baseball followers have their eyes on Cincinnati today. For the Reds runners-up in the sparkling National league race, have begun a long home season, opening against St. Louis yesterday for what should be a terrific series. The league-leading Giants, less than four games ahead of the Reds, open away from home, playing Philadelphia on the Quakers for today, after which they will play two days at home, and then on Thursday, and open a series at Chicago Thursday.

The Reds yesterday slipped a bit lower in the percentage column by losing to St. Louis, 2 to 1. The Giants took advantage of the Reds' opening day by winning 7 to 1. It was their third win out of four in the first round of the season. The St. Louis Tigers series and the Yankees' fifth Tiger series and the Yankees' fifth Tiger series and the Yankees' fifth Tiger series.

## National Open Is Golf's Most Gruelling Ordeal

AMERICA HAS ACCLAIMED THESE AMATEURS. THEY'RE BOBBY JONES, "CHICK" EVANS AND FRANCIS OULIET.

By BILLY EVANS  
When Bobby Jones defeated Robert Cruikshank in the playoff for the national open championship, he was the fourth amateur to have won the title in 25 years of competition.

Jones has several times been on the verge of taking down the honors as in the amateur and open event, but fate at the last moment has played him false. Last season at Stoke, Jones finished in a tie for second place, one stroke away from Gene Sarazen, the winner.

In golf the amateur has been making rapid strides in the last 10 years. It is a certainty that the victory of Jones made no hit with the high-priced professionals, who feel that they must always finish in the front to retain their prestige.

Francis Ouliet brought the amateur golf to the spotlight by his sensational victory at Brookline, Mass., in 1919. Never considered as a champion

possibility, Ouliet finished in a tie with two of England's greatest players, Harry Vardon and Ed Ray. In the playoff, Ouliet finished with a 72, while the best Vardon could get was a 77 and Ray a 75.

Amateurs Cut Wide Swath  
Ouliet's victory made it apparent that the amateur golfer was to cut a wide swath in national competition. The following year Chick Evans proved that the coming of the amateur was no fluke. He finished second to Walter Hagen, the winner, just one stroke away from the coveted title.

In 1916 Jerome Travers again carried the banner of the amateur player to the front by winning the national open title, finishing one stroke ahead of Tom McNamee.

In 1918 Chick Evans not only won the amateur championship but also the open title. In winning the open title Evans recorded a score of 256, the lowest ever made in the golfing classic.

Jack Hutchison, the noted pro, was two strokes away.

Jones Not More Flash  
Thus for four years the amateur golfer practically showed the way to the crown of the golfing world. The success of the amateur was a severe slap at the prowess of the professional.

Because of the war the national open was discontinued for two years. In 1919, 1920 and 1921 the pro players held the stage to the exclusion of the amateurs.

Then came the sensational play of Jones last year when the hardest kind of luck caused him to lose to Gene Sarazen by a stroke.

Jones is not a flash champion. He is a finished golfer. The boy wonder of golf, who started at 7 and won after 11 years of effort, has finally won the greatest golfing honor in the United States, will continue to be one of the outstanding stars of the game for years to come.

Marchmaker "Deak" Dodge of the Moody club announced today he had received word from the Massachusetts state boxing commission that Freddy Jacks, the English featherweight, who ran out of his match with Young Manty last Thursday night, had been ordered to fulfill his contract here on next Thursday night or stand suspended for one year.

The announcement from the boxing commission came this morning, but Dodge had been negotiating with Jacks, who called the local man on the phone yesterday and pleaded that he be given another chance. The disappointed boxer expressed regret at his action of last Thursday night and his appeal so impressed the local man that he decided to grant his request. Now that the commission has issued the order, everything is O. K. for the bout to go on next Thursday night.

Manty when informed of the plan to have Jacks keep his engagement, expressed delight. He now has a greater scope to settle with Jacks and he is out to accomplish his purpose.

Other bouts on the program will be Young Vandy of Lawrence vs. Eddie Robinson of Worcester, eight rounds; Mike Nilon of Fox Village vs. Johnny McIntire of Lawrence, six rounds; and one other preliminary.

The main event issued last Thursday night will be good for this week's bouts.

CAREFUL, THERE!  
Delaware university is expecting great things of Hanky Chin during the coming year. Back in his native Honolulu, Hanky has quite a reputation as an all-around athlete. On the diamond he's a catcher. On the field he's a "cheerleader" on all the time.

AMATEUR BASEBALL  
The Royal A. C. would like to have a game with any of the following teams at any time, the Columbia A.C., Rogers, Oakleaves, Crystals, and the Wildcats. Call 2363-M. The following Royal A. C. players are asked to report for practice tonight on the Dixwell grounds: R. Bonfanti, Joe Bonfanti, E. Dole, Barbara, H. G. A. Dole, Vardette, N. Lohelle, Sherry, Michael.

The North End Juniors of Lawrence would like to meet any 13-15-year-old Lowell teams. They claim victories over the fastest team of their age in the down-river city. Games may be arranged by writing Manager Anthony De Prato, 167 Elm street, Lawrence.

100 AMERICANS RECEIVED BY POPE  
ROME, July 23.—The pope today received a party of about 100 American pilgrims conducted by the Rev. Robert Kelly, who presented Peter's Pence. The pontiff delivered a short address in which he thanked the pilgrims for undergoing the hardship of the journey. He imparted upon all the apostolic benediction and also blessed the religious objects carried by the Americans.

## FIFTH WORLD'S CHAMPIONSHIP BOUT OF 1923 AT N. Y. TONIGHT

A FIGHTER AND HIS MOTHER  
If a mother's faith counts for much, Lew Tendler will defeat Benny Leonard, lightweight champ, for Mrs. Anna Tendler is at her son's training camp near Philadelphia, Pa., seeing that good care is taken of him. The bout takes place tonight.

## Benny Leonard Risks His Lightweight Title in 15-round Match With Lew Tendler at Yankee Stadium—80,000 People Expected to Witness Battle

NEW YORK, July 23.—(By the Associated Press)—The fifth world's championship battle of 1923, will be a magnet that is expected to attract a throng of nearly 80,000 tonight when Benny Leonard risks his lightweight title in a 15-round match with his hard-hitting Philadelphia rival, Lew Tendler, at the Yankee Stadium.

This season has been one of adversity for ring champions, three out of four world's crowns having changed hands to date, but Leonard is not less confident on that account. The 135-pound king pronounced himself today to be in the best condition of his career, and declared he was certain of his ability to win decisively.

Tendler also was in fine fettle and ready for a slugging struggle. The rugged southpaw had the lightweight ropes almost within his grasp a year ago, when he had Leonard topping momentarily in the eighth round of their 12 round encounter at Boyle's Thirty Acres. He is confident he will knock him down seven or eight tonight.

Both fighters will weigh in this afternoon at 2 o'clock.

Twilight League Games  
Four on the Program for This Week—Lincolns and Bellevues Tonight

Four games are on the program for the new Lowell Twilight league this week, the three regularly scheduled for tonight, Thursday night and Friday night, with the play-off of last week's Bellevues-Lowell Americans tie on Tuesday night.

Tonight the Bellevues and Lincolns will meet on the South common play-off. The catcher is about to pick up the ball and make a play on the runner. Well matched Americans and Bellevues are attempting to break their deadlock of a week ago. On Thursday night the Lincolns and Americans will have at it, while on Friday night the Bellevues and West Ends will come together.

All teams are out to strengthen up as the season begins its second week and a number of strong teams are expected to be brought into the field.

What is the proper ruling?  
The batsman should be declared out for interference.

When his bat came into contact with the ball, preventing the catcher from picking it up and making a play, he created an interference.

No consideration can be given to the fact that he had his bat back to the play, for that he had his bat would prevent a play by the catcher.

If serious consideration was given to the intent, the umpire would always be in trouble on an interference play. The player would invariably contend there was no intent to interfere.

The batsman should have been declared out and the runner who went from first to third and back to first, as no runners can advance on such an interference.

WESTERN GOLF CHAMPIONSHIP  
CLEVELAND, July 23. (By the Associated Press)—Nearly 150 golfers including Jess, Sweetser and Chick Evans, took off today at the Mayfield country club in the first half of the 36-hole qualifying play for the western amateur championship.

The Yankees completed their western trip yesterday at Detroit. They are heading east, and are looking for a four game series with the Athletics at Philadelphia before returning to the Yankee stadium next Saturday to start a series with the Chicago White Sox.

## ABBOTS WIN TWICE

Fitchburg and Fall River  
Teams Fall Before Strong Westford Nine

Holding the heavy-hitting Fitchburg team to four scattered hits, the Abbott Westords yesterday planned a 2 to 2 defeat on the up-state boys in a close and exciting contest. Al Davidson pitched masterly ball for the winners, and had the better of the former Eastford pitcher, Hal Austin. Lowell scored on the game in the ninth when Hendrickson walked and Urban and Dempsey connected for a second safety. Davidson pitched a sweet single and first scored two runners. The score:

Olaf Hendrickson's four-base, about with Murphy on first, brought a 2-1 victory to the Abbotts over the Fall River team at Grandview last Saturday. All the runs of the contest were scored in the opening frame, after which both runners, runners for the Abbotts and Fall River, were out. Hendrickson and Davidson pitched a pretty pitcher's battle. ## \$100,000 LOSS BY FIRE CAR TURNED TURTLE

Two Firemen Injured and Chauffeur Fatally Injured—Man Lost Eyesight at Athens, N. Y.

ATHENS, N. Y., July 22.—A steam pumper, vintage of 1878, and driven from Cutskill, Coxsack and Hudson, yesterday saved this village from destruction when it was swept through the storage houses, lumberyards, coal sheds and garages near the river bank, leaping River street and threatened dwellings in Washington avenue. Two firemen were injured, one man lost his eyesight. The loss is estimated at nearly \$100,000.

Gasoline driven pumps were unable to force water to the roofs and towers of the houses, and it remained for the neglected old-time steam pumping engine of the Willam M. Horton hose company, a wood fire blazer under its boiler, to force the streams of water where most needed.

Pains in Limbs and Back Disappear on Taking Dreo. Feels Stronger.

Day after day people are speaking in praise of Dreo in such open, frank words that no one can doubt their sincerity. Persons who have given it a fair trial claim it has strengthened a weak digestion, caused a long liver, banished constipation, restored a disordered kidneys and averse rheumatism. Read the recent statement of Mr. Frederick L. Jones of Collinsville, near Lowell, Massachusetts. He says:

"I hated to get up in the morning knowing full well that I had a day of suffering before me. I could not move without pain shooting through my back and limbs. And when it rained my rheumatism was so bad that I wanted to yell from the pain. I finally put my liver in a sluggish condition. Looked pale and sickly. I felt tired and weary. My system was run-down and weak."

Nothing that I took did me a bit of good. "I heard of Dreo and decided to try it. It was the luckiest day of my life. This wonderful remedy completely relieved me of my troubles. All traces of my rheumatism has disappeared. I am stronger and that tired feeling has gone. And my liver working properly has cleared the poison from my system. I hope that everyone suffering from my trouble will benefit by taking this wonderful medicine." ## GIRL DROWNED, THREE RESCUED

Malden Girl's Fiance and Two Brothers-in-Law Dragged Under by Girl

Rescuers in Peril and Saved by Two Companions—Victim's Body Recovered

BOSTON, July 22.—Exhausted in a futile battle to save the life of Miss Julia Kelley, 22, of 133 Emerald street, Malden, her fiance, Archibald Doyle, 77 Walnut street, Brookline, and two of the girl's brothers-in-law nearly gave their own lives in the Mystic river, in the Wellington section of Malden, late yesterday afternoon.

Two other men then figured as heroes in the dramatic life struggle when they succeeded in dragging to shore, through a powerful undertow, the three original would-be rescuers.

**Pulmotor of No Avail**  
Two Malden police officers, drawn to the scene by the screams, stripped off their uniforms, leaped into the river, and after bringing Miss Kelley's body ashore worked over her two and one half hours with a pulmotor, but to no avail.

A brother-in-law of Miss Kelley, Samuel Brennan of 334 Highland street, Malden, who, with his sweatshirt, Archibald Doyle, was dragged under the water as she fought, is at the Malden hospital in a serious condition.

Another brother-in-law John Cronin, of 132 Emerald street, Malden, fainted when trying to swim to the side of Brennan and Doyle. Doyle and Cronin resuscitated first and treatment at the Malden police station.

Francis Doyle, brother of Archibald, and also a resident of 77 Walnut st., Brookline, is given the credit for rescuing both Brennan and Cronin, while James J. Casey of 22 New Hampshire avenue, Somerville, aided in saving Archibald Doyle.

**Was Learning to Swim**  
With the five men, Miss Kelley had gone to the clay pits in the Malden marshes in the afternoon to try to learn to swim. The pits are deep and have sloping sides. With a heavy undertow as the current recedes, the river at that point is quite dangerous.

About 15 feet from the shore, and in apparently shallow water, Miss Kelley was seen to throw up her arms and drop below the surface. She had fallen into one of the flooded pits, a veritable death trap, and suction point for a whole pool, not recoverable from a viewpoint on the bank.

Brennan and Archibald Doyle struck out almost simultaneously. Alternately they were pushed under the surface by Miss Kelley's struggles. Brennan, exhausted by his treading in the undertow, was forced to give up, and Doyle tried to assume the burden of rescuing both Miss Kelley and Brennan.

## HELD ANNUAL PICNIC AT SILESIA PARK

The annual picnic of St. John's parish, North Chelmsford, was held Saturday afternoon and evening at the Silesia park grounds, with a large crowd in attendance. Although the weather was not the best, the happy crowd remained to enjoy the many attractions afforded by the committee in charge. Several sports were curtailed as a result of the threatening weather, but later in the afternoon, these were resumed, to the delight of all present.

The Chelmsford band entertained the parishioners with a well ranged program. The clergy of the parish as well as its members were active participants in the affair which proved to be a big success. Later in the evening a dance was held in the town hall, which proved very popular with the younger people. The fun continued until a late hour when one and all pronounced the year's event as successful as those of former years.

## DRACUT FIREMEN HOLD FIELD DAY

The first annual field day of the Dracut firemen, held last Saturday at the rifle range, was the greatest outdoor event ever held in that town. Beginning at 1 o'clock with a parade that covered all the sections of the town, there was something doing every minute from that time until late at night.

The parade was of the fire apparatus, followed by trucks and machines bearing townspeople on their way to the celebration. The new triple combination truck was driven by Lieut. G. A. Roth and proved to be the centre of interest.

The apparatus and firemen arrived at the grounds at 2.30 and the program of sports was immediately begun. These created great interest as each participant was loudly cheered by friends from his own section of the town. The races and winners were as follows:

One hundred yards free for all, Lewis Barnaby, gold clip; Frank Thomas, cuff links.

Tug-of-war for women, Collinsville team, gold pins, thumbtacks.

Fat men's race, Bert Cluff, pipe, George Parker, cuff links.

Tug-of-war for firemen, semi-finals, Navy Yard defeated Collinsville, Kenwood defeated Centre; finals, Kenwood defeated the Navy Yard, gold pencils.

One hundred yard dash for young women, Mabel Povey, diamond bracelet; Irene Adams, rouge box.

Fat women's race, Mrs. Burgess, nutmeg mixer; Mrs. Povey, spoon.

Hallion race, Joseph Murphy, gold pencil; Mabel Povey, pearl pin.

One hundred yard dash for boys, Sam Hobbs, gold pencil; Arthur Wells, gold cuff links.

Pie eating contest, Russell Webb, tie clasp.

Nelson Huntley acted as starter, with Fred Swindell and Joseph Knight as judges, and A. Pilote, announcer.

The contests between the four fire companies were the most interesting and created the most enthusiasm. The first was a hose-laying contest. Each company had to lay 200 feet of hose and then race to the wagon on the wagon. The Navy Yard team won this in one minute and 21½ seconds.

The second event was a chimney fire contest. In this each team had to put up their ladders, get up a chimney, and get a stream of chemical on the supposed fire. The Dracut Centre team was finally adjudged the winner of this contest, their time being two minutes and four seconds.

The winners in each contest were awarded a silver cup, one being donated by Chief Gunther and the other by George H. Stevens.

The officials of these contests were Sam Pillsbury, starter; William Shanks, announcer; Chief A. C. Perham of Chelmsford; Assistant Chief Chamber of Billerica, and Henry M. Jones of Chelmsford, were judges, and L. C. Clark of Lowell, timekeeper.

A full-fledged midway proved a centre of attraction for the many visitors as the grounds and the booths and tables where chances were sold did a very good business. The Lowell brass band, consisting of 25 pieces, furnished music throughout the afternoon and evening and many other features added to the success of the event.

The officers in charge of the affair and the committees were as follows: Chairman, Frank H. Gunther; treasurer, Frank R. Huntley, secretary, C. Wallwork.

Committee on sports: Leo Roth, A. Pilote, W. Carpenter, T. Carlick.

Reception committee: E. Bennett, J. Merrier, D. Gorman, T. Anglin.

Advertisement committee: Dracut Centre, A. Fox; Navy Yard, W. Rafferty; Collinsville, P. Collins; Kenwood, J. McManmon.

Uniform committee: Dracut Centre, C. Coffin; Navy Yard, M. Carpenter; Collinsville, D. Kennedy; Kenwood, F. Carroll.

Transportation committee: Dracut Centre, J. Nornie; Navy Yard, T. Dimley; Collinsville, G. Chaplin; Kenwood, H. Parker.

## OPPOSES RECOGNITION

Hughes Tells Gompers U. S. Cannot Open Negotiations With Soviet Russia

WASHINGTON, July 22.—Recognition of the Russian soviet government by the United States cannot come while its leaders continue to utter a spirit of destruction at home and abroad, according to a declaration by Secretary Hughes made public yesterday. In an exchange of correspondence with Samuel Gompers, president of the American Federation of Labor, Mr. Hughes renewed a statement of principles, which he said was guiding American governmental policies with regard to Russia, while Mr. Gompers made direct reference to the recent public demands, from senators and others who have visited Russia, for recognition.

American tradition, Mr. Hughes said, founded on a desire to refrain from interference with internal affairs of other nations, might require recognition of any government, even a government of a "transient minority," when the people of the nation concerned manifested "acquiescence or submission" to it. Nevertheless, recognition being an invitation to intercourse, the government seeking recognition should evince a disposition to "live up to the obligations of intercourse," he declared, defining in detail, assertions that the Russian government was so doing.

Mr. Gompers, remarking on "misinformation gathered by returning travelers during closely supervised tours" in Russia, suggested in a letter to the secretary of state, that some purpose might be served "if those standing for the American concept of right and justice and democracy could be given to understand that the backbone of the whole situation regarding Russia is the denial to the people of Russia of any opportunity to pass judgment on their own affairs or to say by whom or in what manner they shall be governed."

The state department's position, he said, had been understood by him to be that of "energetic opposition to a tyrannical minority imposing themselves on a reluctant people." Expressing the opinion of wage earners, he said, "the thought that the United States might, under any circumstances, extend official recognition to such a villainous despotism, is repugnant."

## Safety Lessons

FOR  
**The Auto Driver**  
Prepared by the National Safety Council—Issued by the Massachusetts Safety Council.  
No. 15—Clutch Transmission and Differential

The clutch transmits or disconnects the power from the engine to the transmission. It permits the engine to pick up its load gradually.

a. Keep the foot off the clutch unless you are shifting gear. "Riding" or "slipping" the clutch should be discouraged. Unnecessary pressure on the clutch wears the clutch mechanism, makes clutch surfaces smooth, and may cause the clutch to overheat.

b. Clutch action needs adjustment except with reference to floor boards. Pedal should have 1 1/2-inch clearance in every direction. Heavy gear shifting is generally due to clutch not being "thrown out" far enough.

The transmission transmits from the clutch through the differential to the rear wheels. The transmission is a series of gear reductions which provide increased torque and additional power for starting and climbing hills.

a. Keep transmission well lubricated. Use a good transmission oil or semi-fluid grease. Heavy grease will not circulate through bearings. Oil level can be determined by removing screw plug in side of transmission case. Oil should be changed about every 300 miles. Case should be filled until oil flows out plug hole.

b. Gear teeth in transmission are sometimes broken off by throwing in clutch too suddenly. By shifting speeds rapidly when the engine and car speeds are not equal, or by accidentally shifting into reverse when the car is moving forward.

The differential is a set of gears which equalize the power between the two rear wheels when they are moving at unequal speeds. When turning a corner, the outside wheel travels faster than the inside wheel.

Turning a corner on two wheels may damage the differential due to the unnecessary spinning of one of the rear wheels. In the chain drive, which keeps the two chains adjusted with equal tension, an uneven differential will be worn unnecessarily.

c. It is essential that the differential be properly lubricated. Universal joints are used to increase the flexibility of the drive shaft. Usually the drive shaft is in several pieces, joined by universal joints.

They permit free rotation of the pieces of shaft even though they are not in an exact line with each other.

## LOWELL DISTRICT COURT

Manslaughter Charge Against Driver of Auto Dismissed—Other Cases

The manslaughter complaint against Leonard Belanger was dismissed in district court today.

Belanger was the driver of an auto that struck four-year-old Lea Glauco on Perkins street on June 30, as a result of which the child later died at St. John's hospital.

A report of the inquest held by Assistant Justice Pickman was filed today, in which the court held that there was no criminal negligence on the part of Belanger.

**Direct Sentences**  
Arthur Berwin and Nicholas Kuki-nov were each found guilty by Judge Pickman of assaulting John S. Meroux and robbing him of \$120, and they were each sentenced to five months on the felony complaint and one month on the assault charge.

Meroux testified that he met the two young men in a restaurant, and that he brought something to eat for one of them. After leaving the restaurant he was set upon by the pair on Button street, punched in the face and knocked down, and the money taken from his trousers' pocket.

The defendants admitted the offenses but claimed that they took only \$24 instead of the amount charged.

**Other Offenders**  
William H. Oakes was sentenced to three months in the house of correction by Judge Pickman in district court today, after his wife testified that he had been on a continual drunk for eight years.

Oakes was before the court last November and at that time was placed on probation. But Mrs. Oakes said that he didn't do any good and she asked that he be sent away.

Thomas J. Brown was given a suspended sentence of three months on a drunkenness complaint, with the understanding that he contribute \$12 each week towards his family's support.

Donis J. Murphy, on parole from the state farm, will be returned there for failing off the wagon.

Martin J. McAndrews, who was given a suspended sentence Saturday, was before the court again today for drunkenness. Upon his promise to contribute \$12 each week towards his family's support, he was released.

The continued case of Arthur J. Smith, charged with drunkenness and operating an automobile while under the influence of liquor, was called for disposition in district court today and the defendant was fined \$110 on the latter charge. The drunkenness case was filed.

John M. Burke, who was with Smith at the time, was fined \$5 for drunkenness.

Clifford Naval pleaded guilty to a complaint of illegal sale of liquor and a fine of \$100 was imposed.

Frederick J. McAndrews pleaded guilty to operating an auto without a license and he was fined \$20.

Eugene Gaudin, charged with operating an automobile while under the influence of liquor, had his case continued until Thursday.

The continued case of William F. Kane, charged with violation of the liquor laws, was further continued until August 1.

**Little Girl Injured**  
Nella Brock, a nine-year-old girl residing in West Merrimack street, was struck down and slightly injured in front of the Immaculate Conception church about 3:45 o'clock this morning. The automobile which struck her was being driven by Mark A. Cassimus of 70 Montvale avenue, Woburn, who removed her to St. John's hospital.

## TESTING LOWELL WATER FOR POLLUTION

### Earthquake Rocks Southern California Towns

#### TAKE SAMPLES OF RIVER WATER TO DETERMINE EXTENT OF ITS POLLUTION

Investigators of State Department of Health Spend Day in Survey of Water Just Above Pawtucket Dam—Action Part of Agitation for New Merrimack Valley Water Supply

With a view to determining, as near as possible, the amount of pollution in the Merrimack river in this city, State Inspector W. E. Merrill and a staff of assistants from the state department of health, made a 24-hour survey of the river water in the vicinity of the Pawtucket dam yesterday. The official investigators came here Saturday night, established headquarters at the boat house of C. H. Jones, and took a series of readings at given intervals during the night and yesterday. Their report, according to Mr. Merrill, will not be available before the end of the week.

The action was taken principally because of the fact that the city of Lawrence has appointed a committee and prepared a legislative act for presentation at the State House, for a new source of water supply. As the Merrimack river, with the aid of a proposed "trunk line" sewer system, has been repeatedly suggested as adaptable to this purpose, the state health authorities deemed it advisable to conduct an extensive investigation of defilement in the water. Tests have already been taken in Lawrence.

As the result of the investigations here, several samples of river water, taken at points not less than 20 feet from shore, will be presented to state chemists for analysis as soon as possible. Accompanying each sample is the inspector's written report as to the abnormal conditions existing in the source of water, as, for instance, if the stream is swollen by recent heavy rains, or is unusually low, or if there is anything remarkable in the appearance of the water, or if any taste or odor has been observed.

Aside from stating that the job was a delicate one, Mr. Merrill refused to comment on his local observations.

#### Summer Health Camp Opens for Boys

Fifty-eight boys started today on a two weeks' health building campaign at the summer health camp conducted by the board of health, under the direct supervision of Dr. Francis A. Finnekan, director of school hygiene.

This is the third week of the camp, the first two weeks being given over to the purpose of the camp is to build up the children of school age who are under-weight so that they will be better able to go on with their studies at the beginning of school.

The camp consists of two shacks for rest purposes, one kitchen, one storeroom and one shack covering the toilet facilities. Temporary shower baths are attached to the rear of one of the buildings and the water is piped up from the isolation hospital, which is about half-a-mile from the camp.

Four public health and school nurses stay at the camp and take care of the children. As the camp is not a permanent affair, the children are only there during the day time and the work is naturally held back a little by this fact, but the doctors and nurses are well pleased with the results that have been obtained in a two-week period and are looking forward to the time when the camp will be held all summer long and the accommodations will be such that the children may stay both day and night.

The program of the day starts at 8.30 Continued on Page 3

#### MAYOR MUST KNOW FINANCIAL CONDITIONS BEFORE APPROVING EXTRA APPROPRIATIONS

Although Mayor John J. Donovan's appropriation out of total credits of \$125,000, the balance being deemed appropriations for city departments sufficient to maintain the department now or not at all and insists that all additional moneys raised shall be figured in as a part of this year's tax rate, no departmental request will be approved until its financial condition has been thoroughly investigated and studied.

At present the mayor has before him for consideration requests from the board of public service for additional appropriations amounting to \$70,000.

It also is understood that the isolation hospital needs \$10,000 to round out the year, and as far as can be learned no other department will be given any more money than was originally appropriated.

The public buildings department has a balance of \$61,258 in its maintenance fund.

AMUSEMENT NOTES  
HIALEO THEATRE

Dustin Farnum, after a long absence from the screen, makes his return in "The Trail of the Axe" now playing at the Hialeo theatre. In this great outdoor story, Farnum is seen in the role of a thriving lumber merchant. His business troubles seem trivial compared to the responsibility of the care of his father-downed brother, who is a confirmed drunkard. Dave is astonished when he hears that the girl with whom he is in love has engaged herself to his brother. For the girl's sake he sets out to reform his brother who in turn repays him by conceiving a diabolical plan to hurt him. "The Trail of the

Axe" has never been shown in Lowell before and local movie fans will welcome Dustin Farnum in this strong and virile drama.

The added feature is "The Wrong Woman," a drama, with Montague Love and Olive Tell.  
A Mack Sennett comedy, the second episode of "Thunderbolt Jack" with Jack Hoxie, a Burton Holmes Travelog are also on the program for the first half of the week.

MERRIMACK SQUARE THEATRE

"Where the Pavement Ends," one of the best photoplay productions Rex Ingram has ever turned out for Metro, is the feature attraction of the current program at the Merrimack Square theatre. An all-star cast, headed by Alice Lake, interprets the various roles. "An

comedy drama, based on the famous poem by James Whitcomb Riley, is the other feature at Lowell's most comfortable theatre.

THE STRAND

The feature picture on The Strand program for the first part of the week is "Blackboard," a story of the great romance in which the romance of generations ago is a twentieth century development of unusual interest. Alfred Lunt, one of the handsomest screen stars, and Edith Roberts, are appearing in the leading roles, and they receive the help of a most competent cast.

The second feature is one of Marshall Neilan's most recent comedy drama successes, "Minnale," with Leatrice Joy and Mutt Moore in the leading roles. It is a most enjoyable story, and is particularly well handled both by the cast and the director. The remainder of the bill will have a comedy and Weekly, as well as good musical numbers. Don't miss this big bill.

BOUFFANT

The modified bustle and elaborate back draperies are featured on the formal frocks. The bouffant line is holding its own, particularly with the slender.

Declares Two Young Women Jumped From Behind Tree and Beat Her

**SWAMPSCOTT**, July 23.—Two girls who are alleged to have accused Mary Picarella of writing "poisoned pen" notes and then to have attacked and beat her, are being sought today by the police. The victim of the attack told the police that early Sunday when she was returning home from work through a park, Mary and Jenny D'Agness stepped into her path from behind a tree and handed her a note, written in Italian, which they accused her of writing.

Miss Picarella said that when she denied all knowledge of the letter, they attacked her with a heavy club and with their fists, beating her severely. Her father swore out a warrant, charging assault and battery.

## FULL MILITARY HONORS

**WASHINGTON**, July 18.—Rear Admiral Charles D. Sigsbee, retired, famous as the commander of the ill-fated battleship Maine, received his last salute today. With full military honors, he went to his final rest at Arlington National cemetery.

The saloon bearing his body had remained at the Union station with a marine guard since Saturday night. An escort composed of two companies of bluejackets, a company of marines and a battery of field artillery, met the body at the Fort Myer gate at Arlington. The Kit Carson Post, G.A.R., of which Admiral Sigsbee had been a member for 25 years and the Richard J. ## BABY IN SUITCASE ON CHURCH DOORWAY

**BOSTON**, July 23.—Led by an unidentified woman, Charles Crocker of 59 Dwight street, South End, was taken to the basement steps of the Holy Trinity church on Shawmut avenue, South End, yesterday afternoon, and was shown a strapped suitcase and a black shopping bag thrown in a corner. The woman then vanished and, upon investigation, Crocker found a baby girl, two days old, near to suffocation in the tightly strapped suitcase.

Crocker summoned police from East Boston street station and Sgt. M. J. Donahue with Special Patrolmen Gaffney and Heffernan started an investigation. The infant was taken to Chardon street home and later to the Baymarket relief station to be treated for malnutrition and an infected wound.

The only clue the police have to work upon to establish the identity of the suitcase baby, as it has been dubbed for want of a better name, is the cheap straw suitcase that cradled it as it lay waiting for food in the basement doorway of the church.

## Rescued Drowning Men

twice when Mr. Achin reached them, grabbed the upraised arm of one and the half of another and held them from the boat's stern while Mr. Normandin poked back to shore. Two of the men recovered quickly, but it required nearly half an hour to bring the third back to consciousness.

The accident and rescue occurred at about 3:30 o'clock in the afternoon. Mr. Achin and Mr. Normandin were sitting on the piazza of the Achin cottage and saw the men put out from shore, row a short distance and slip into 12 feet of water when the boat overturned as one of the men tried to pass from the boat to the stern.

Before Mr. Achin and Mr. Normandin could get into their boat and reach the spot they saw the three men twice sink below the surface of the water, with the largest of the trio fighting to free himself from the other two who clung to his body with grips that were not broken until the rescue had been made and the men towed to shore.

"It was not hard work to save them," said Mr. Achin today. "But simply a question of time. As the three were snatched together they were tossed easily, but I think we reached them just in the nick of time."

Exhibition to Show Progress of Catholic Church in Evangelization of World

Church Going Hand in Hand With the Development of Science

ROME, July 23.—(By the Associated Press).—An exhibition to show the progress that the Roman Catholic church in its evangelization of the world is going hand in hand with the development of science and that its missionaries are applying the latest scientific discoveries at the same time they are saving souls, will be included in the celebration of Holy Year in 1925.

Cardinal Guglielmo Vannosum, prefect of propaganda, is studying instructions given him by Pope Pius in which the pontiff outlines his idea of what the missionary phase of the celebration should display. Pope Pius expressed the desire that the scientific part of the exhibition be one of the most important presented.

All the scientific material gathered for the exhibition will be deposited in the Vatican library after the celebration, to comprise one of the most remarkable documentary collections in the world.

One of the most attractive features for the general public will be played in the Vatican garden where the various nations of the earth will be represented in native environment by natives brought especially to Rome showing the customs and modes of living from the Arctic to the Equator to the Antarctic, from Red Indians to Papuans, including cannibal tribes.

The pontiff plans that the exhibition contain maps of the routes leading in the world and data from the Vatican observatory showing the results of its studies and all other information that the pontiff sources have gathered in meteorology, flora and fauna from the four corners of the world.

## ABANDON PLAN TO CALL ATTY. GEN. DAUGHERTY

WASHINGTON, July 23.—Council for the defense in the trial here of Charles W. Morse and others on charges of war-time shipping frauds, continued their presentation of evidence today before abandoning their plan to call Attorney General Daugherty as a witness stand.

Decision not to call the attorney general, who had been summoned to testify today, was announced yesterday by the defense attorneys, who, however, are not giving up the call of the general. The summons for the call of the general was issued last week and reached the United States marshal at Columbus, Ohio, where the attorney general has been for several weeks. The defense attorneys at that time declined to indicate what line of evidence they intended to develop.

When Daugherty testifies that Charles W. Morse, former director-general of the British Petroleum Corporation, whom the defense had summoned to testify, had admitted guilt and been sentenced also probably will not be called, it appeared certain that the defense would complete its testimony by the middle of the week. Several days then will be required for the government's rebuttal.

**AUTOMOBILE HIT TREE**

About 4:20 o'clock yesterday morning, Ovilla Lapointe of 8 Williams street, Nashua, N. H., and Walter and Paul Theroux and Leo Disbolsbrien, who were riding with him in his automobile, were slightly cut by flying glass when their machine swerved into a tree in Merrimack street, near Gage. were the other places where the sharp shocks were reported felt.

**Heavy Damage at San Bernardino**

In San Bernardino the Hall of Records, a building in the courthouse group, was badly damaged, tons of rock being torn from the walls. The falling debris crashed through the roof of a rooming house adjoining, critically injuring George R. Fisher, who was sleeping. Other roomers were thrown into a panic and rushed into the street, nearly clothed.

Plate glass windows in a number of business establishments were shattered. Walls of numerous buildings and sidewalks were cracked.

Telephone communications were cut off, adding to the pandemonium. Street

lights went out when a number of wires went down.

**Chimneys Tumbled Over**

A pull of dust from falling bricks hung over San Bernardino for five minutes after the first shock. At the Southern California state hospital at Patton, where approximately 2500 patients were quartered, the shock rocked the buildings. In one wing, much plaster fell. The patients were terrified but were quieted by attendants. Several smaller buildings were damaged. No one was injured.

**Burglar Alarms Set Off**

At Redlands plate glass windows in

many stores on streets running east and west, were broken.

All burglar alarms in the Hollywood district of Los Angeles were set off by the earthquake, police said.

Plaster fell from the walls of a Sixth street restaurant in Los Angeles and the diners started to run from the building but the leader of the orchestra reassured them.

**Prisoners Panic Stricken**

The prisoners in the Los Angeles and the county jail were panic stricken. A message from San Jacinto, which city was badly damaged in 1915, said the damage there was not serious.

## \$150,000 FUND FOR PHONE GIRLS

Letters Recommending Assessment on Every Union Member in Mass. Sent Out

Action to Aid Strikers Decided Upon by Central Labor Union Representatives

Strike Leaders Prepare to Continue Strike With Renewed Energy

BOSTON, July 23.—Letters recommending an assessment of at least 50 cents on every labor union member in Massachusetts to raise \$150,000 for the aid of the striking telephone operators of the New England states, were mailed today to 2004 local unions by the secretary of the state branch of the American Federation of Labor. Included in the letters will be instructions to appoint working committees whose duty it will be to induce persons in communities affected by the strike to urge men and women employed as operators by the New England Telephone & Telegraph Co., to give up their positions.

As a result of the action to aid the strikers which was decided upon at the meeting of Central Labor union representatives in Worcester yesterday, leaders of the strikers prepared today to continue the strike with renewed energy. Two conferences last week at which the company offered to take back as many operators as there were vacancies at their old wages with restoration of benefit privileges at the end of a year but with the loss of seniority rights failed to accomplish a settlement.

Approximately 3500 girls walked out on June 25 after the company refused to raise wages and shorten the working day to seven hours. Company officials stated today that no further conference had been arranged for and that service conditions reported nearly normal Saturday, were unchanged.

**FIRE IN BROADWAY**  
The alarm from Box 112 about 10 o'clock this morning was for a minor fire in the basement at 185 Broadway. The damage was slight. A grass fire in the rear of the Riverside hotel shortly before 11 o'clock this morning occasioned a telephone alarm.

## AM COMPLETELY RELIEVED, SAYS MR. JONES

Pains in Limbs and Back Disappear on Taking Dreo. Feels Stronger.

Day after day people are speaking in praise of Dreo in such open, frank words that no one can doubt their sincerity. Persons who have given it a fair trial claim it has strengthened a weak digestion, roused a lazy liver, banished constipation, restored deranged kidneys, and overcome rheumatism. Read the recent statement of Mr. Frederick L. Jones of Collinsville, near Lowell, Massachusetts. He says:

"I had to get up in the morning knowing full well that I had a day of suffering before me. I could not move without pain shooting through my back and limbs. And when it rained my rheumatism was so bad that I wanted to yell from the pain."

"My inactivity put my liver in a sluggish condition. Looked pale and sickly. I felt tired and weary. My system was run-down and weak."

Nothing that I took did me a bit of good. I heard of Dreo and decided to try it. It was the luckiest day of my life. This wonderful remedy completely relieved me of my troubles. All trace of my rheumatism has disappeared. I am stronger and that tired feeling has gone. And my liver working properly has cleared the poison from my system. I hope that everyone suffering from my trouble will benefit by taking this wonderful medicine."

Wherever you go these days you find someone praising Dreo, for the great amount of good it has done in cases of stomach trouble, sluggish liver, weak kidneys, constipation, catarrh, rheumatism and as a blood builder and reconstructive tonic.

Call today at Green's Drug Store and ask to talk with the expert from the Dreo Laboratories. He will courteously tell you of the merits of this wonderful remedy. Also he will heartily tell you whether or not he thinks Dreo will benefit you. Also Dreo is sold in Nashua by Nashua Drug Co., 175 Main St.

## BIG SELLING MOVEMENT

Opening of New Board Room of Cotton Exchange Witnesses Heavy Business

NEW YORK, July 23.—The opening of the new board room of the cotton exchange this morning witnessed the heaviest business in many weeks, with a smash in prices that carried the level of leading positions off 50 to 70 points, or \$3 to \$3.50 per bale, under closing prices last Friday.

A break in the Texas drought was largely responsible for the big selling movement as traders believed that the crops in that state show material improvement with an effect that might be noted in the next government report. Considerable southwest hedge selling also featured the first four trading.

## WILL RE-ISSUE THE "LOWELL DIGEST"

The chamber of commerce is preparing to re-issue the "Lowell Digest," which was last published in 1916 by the board of trade, and is now making a survey of industries of the city for advertisers to defray the cost of publishing this book.

It is planned to make the re-issue even more complete in its details, including information on Lowell's business and industries and in addition it will also serve as the chamber of commerce book containing the list of members and other salient facts about the organization.

The publication depends entirely upon the desire of local business houses and industries to be represented in the booklet and there is no desire on the part of chamber officials to make it a money-making proposition. If sufficient advertisements are received, 3000 copies of the book will be made for distribution in and around Lowell and strategic points throughout the world.

## DORELLO LEADING IN YACHT RACE

**ABOARD SUN CHASER NUMBER 415, OFF PLANKTON MICH., JULY 23.**—(By the Associated Press.)—With their sails awash, the fleet of seven yachts in the 14th annual race from Chicago to Mackinac Island, early today were traveling fast under a strong breeze after more than a day of falling winds which carried them less than 100 miles.

## GIRL DROWNED, THREE RESCUED

Malden Girl's Fiance and Two Brothers-in-Law Dragged Under by Girl

Rescuers in Peril and Saved by Two Companions—Victim's Body Recovered

BOSTON, July 23.—Exhausted in a futile battle to save the life of Miss Julia Kelley, 22, of 132 Emerald street, Malden, her fiance, Archibald Doyle, 27, Walnut street, Brookline, and two of the girl's brothers-in-law nearly gave their own lives in the Mystic river, in the Wellington section of Medford, last evening after a rescue attempt in the dramatic life struggle which they succeeded in dragging to shore, through a powerful undertow, the three original would-be rescuers.

**Publisher of No Avail**  
Two Medford police officers, drawn to the scene by the screams, stripped off their uniforms, leaped into the river, and after bringing Miss Kelley's body ashore worked over her two and one half hours with a pump, but to no avail.

A brother-in-law of Miss Kelley, Samuel Dorello, 434 Medford street, Malden, who, with her sweetheart, Archibald Doyle, was dragged under the water as she fought, is at the Malden hospital in a serious condition. Another brother-in-law John Cronin, of 132 Emerald street, Malden, fainting when trying to swim to the side of Dorello and Doyle, Doyle and Cronin received first aid treatment at the Medford police station.

Francis Doyle, brother of Archibald, and also a resident of 77 Walnut st., Brookline, is given the credit for rescuing both Dorello and Cronin, while James J. Casey of 32 New Hampshire avenue, Somerville, aided in saving Archibald Doyle.

**Was Learning to Swim**  
With the five men, Miss Kelley had gone to the day pits in the Medford marsh in the afternoon to try to learn to swim. The pits are deep and have sloping sides. With a heavy undertow as the current recedes, the river at that point is quite dangerous.

About 15 feet from the shore, and in apparently shallow water, Miss Kelley was seen to throw up her arms and drop below the surface. She had fallen into one of the wooden pits, a very little at first, and a sudden point for which no one was prepared from a viewpoint on the bank.

Dorello and Archibald Doyle struck out almost simultaneously. Alternately they were pushed under the surface by Miss Kelley's struggles. Dorello, exhausted by his treading in the undertow, was forced to give up and Doyle tried to assume the burden of rescuing both Miss Kelley and Dorello.

## DRACUT FIREMEN HOLD FIELD DAY

The first annual field day of the Dracut firemen, held last Saturday at the rifle range, was the greatest outdoor event ever held in that town. Beginning at 1 o'clock with a parade that covered all the sections of the town, there was something doing every minute from that time until late at night.

The parade was of the new apparatus, followed by trucks and machines bearing out of town on their way to the celebration. The most striking combination truck was driven by Lieut. G. A. Roth and proved to be the center of interest.

The apparatus and firemen arrived at the grounds at 2:30 and the program of sports was immediately begun. These created great interest as each participant was loudly cheered by friends from his own section of the town. The races and winners were as follows:

## OPPOSES RECOGNITION

Hughes Tells Gompers U. S. Cannot Open Negotiations With Soviet Russia

WASHINGTON, July 23.—Recognition of the Russian soviet government by the United States cannot come until its leaders continue to strive for the destruction of home and abroad according to a declaration by Secretary Hughes made public yesterday. In an exchange of correspondence with Samuel Gompers, president of the American Federation of Labor, Mr. Hughes conveyed a statement of principles which he said was guiding American governmental policies with regard to Russia, while Mr. Gompers made direct reference to the recent public demand from senators and others who have visited Russia for recognition.

American tradition Mr. Hughes said, founded on a desire to refrain from interference with internal affairs of other nations, might require recognition of any government, even a government of a "brutal and unscrupulous" nature, when the people of the nation concerned manifested "acquiescence or submission" to it. Nevertheless, recognition being an invitation to interference, the government seeking recognition should exercise a discretion as to "live up to" the obligations of international law.

Mr. Gompers' remarking on "misinformation" gathered by returning travelers during closely supervised tours" in Russia, suggested in a letter to the secretary of state, that some purpose might be served "if those standing for the American concept of right and justice and democracy could be given to understand that the backing of the whole situation regarding Russia is not denied to the people of Russia of any opportunity to pass judgment on their own affairs or to say by whom or in what manner they shall be governed." The state department's position, he said, had been understood by him to be that of "energetic opposition to a tyrannical minority imposing themselves on a people whose sentiment is in favor of the opinion of wage earners, he said, he thought that the United States might, under any circumstances, extend official recognition to such a villainous despotism, is repugnant."

## LONDON MORE FAVORABLE TO LIQUOR PLAN

WASHINGTON, July 23.—Recent developments in England in connection with Secretary Hughes proposal for a special treaty to deal with ship liquor stores and rum running in the off-shore zone have led to a more favorable sentiment in development in London toward an American 12 mile limit plan. Since the London foreign office committee considering the American suggestion has reported, it was pointed out today there have been numerous indications that the committee took a more favorable view of the plan than was at first thought foreign office officials were disposed to do.

# Will Tunnel Through the Heart of the Continental Divide in the Rockies

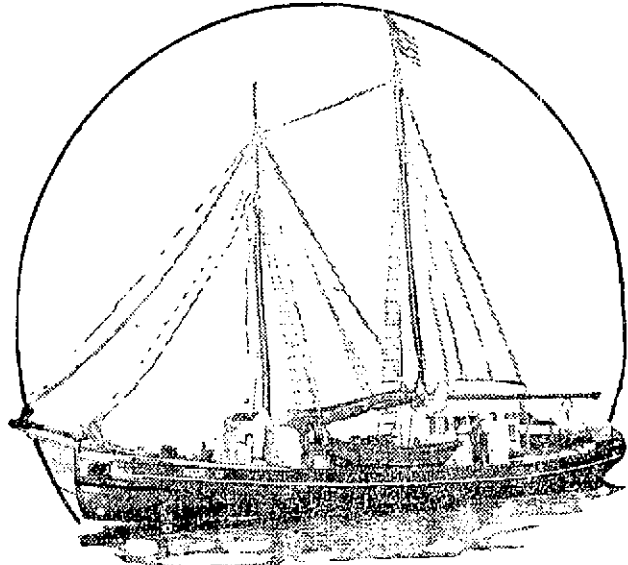

HIGH IN THE ROCKIES, CUTTING THROUGH THE CONTINENTAL DIVIDE, A TUNNEL SOON WILL BE DRILLED. IT WILL SHORTEN THE TRANS-CONTINENTAL RAILROAD FROM NEW YORK TO THE WESTERN COAST BY 175 MILES. THIS BIT OF SUPER-ENGINEERING IS THE REALIZATION OF A DREAM OF THE LATE DAVID H. MOFFAT, AND IT WILL BEAR HIS NAME. THE ILLUSTRATION SHOWS CLEARLY THE PROBLEM BEFORE THE ENGINEERS. THAT IT IS A GENUINE PROBLEM WILL BE REALIZED WHEN IT IS DRILLED. THE TUNNEL WILL BE APPROXIMATELY 9100 FEET ABOVE SEA LEVEL.

By N. E. A. Stripes  
DENVER, Colo., July 22.—The United States supreme court has reduced the distance from New York to San Francisco by 175 miles.  
In a decision upholding the legality of an act creating the Moffat Tunnel commission of Colorado, the supreme court also removed the last legal obstacle to the accomplishment of one of the world's greatest engineering feats.  
As a result, work will begin within sixty days on the Moffat tunnel, a tube a little over six miles long, through the heart of the Rockies.  
**One of the Longest**  
It will bore directly through the Continental Divide from Mexico to Dakota. Thus it will cut across the extreme northwestern part of Eagle county, nearly in the center of the state. The distance between these two

towns is less than 10 miles as the crow flies. But as the railroad runs, it is closer to 185 miles; 175 miles of tortuous track over and around mountains. The tunnel will reduce from 185 to 100 the time required between the two points.  
When completed the Moffat tunnel will be the longest in the United States. It will be one of the longest transportation tunnels in the world. The Mont Cenis tunnel, Modane, France to Bardonecchia, Italy, is seven and ninety-eight hundredths miles in length. The St. Gothard tunnel is nine and three-tenths miles long. The Alps tunnel is six and three-tenths miles long and the Simplon tunnel is twelve and three-tenths miles long.  
In an engineering sense it is not the Moffat tunnel will rank even as of greater importance than other of the world's famous tunnels.

**Time Shortened**  
Geological formations which will be penetrated, scientists believe, would practically have been impossible to pass a few years ago.  
However, late mechanical devices have been invented which are expected to make possible the construction of the tube in less time than was required for the building of the other and longer tunnels.  
Transcontinental trains engineers predict, will be running through the Moffat tunnel within three years. Ten years were required for the building of the St. Gothard tunnel. The St. Gothard took nine years, the Alps was completed in something more than three years and the Simplon tunnel was begun in 1858 and was finished in 1905.  
Summarized, other facts about the Moffat tunnel are:  
Elevation of tunnel, eastern portal, 9100 feet; western portal, 9100 feet.

**Sixteen Feet Wide**  
Construction of tunnel lowers railroad tracks vertical distance of 2400 feet.  
Grades, 0.2 on eastern end and 0.8 on western end.  
Size of tunnel, 16 feet in width and 24 feet in height.  
Construction, main tunnel through a pioneer tunnel first to be driven. Pioneer tunnel 5x5 feet and center line 15 feet from main tunnel.  
Formation, probably of granite, gneiss and schist. Similar to formation in Simplon tunnel, with substitution of granite in Moffat tunnel for gneiss and schist rock in Simplon.  
The new tunnel will bear the name of the late David H. Moffat, who built the railroad west from Denver to Steamboat Springs, which also bears his name.

## EVERETT TRUE

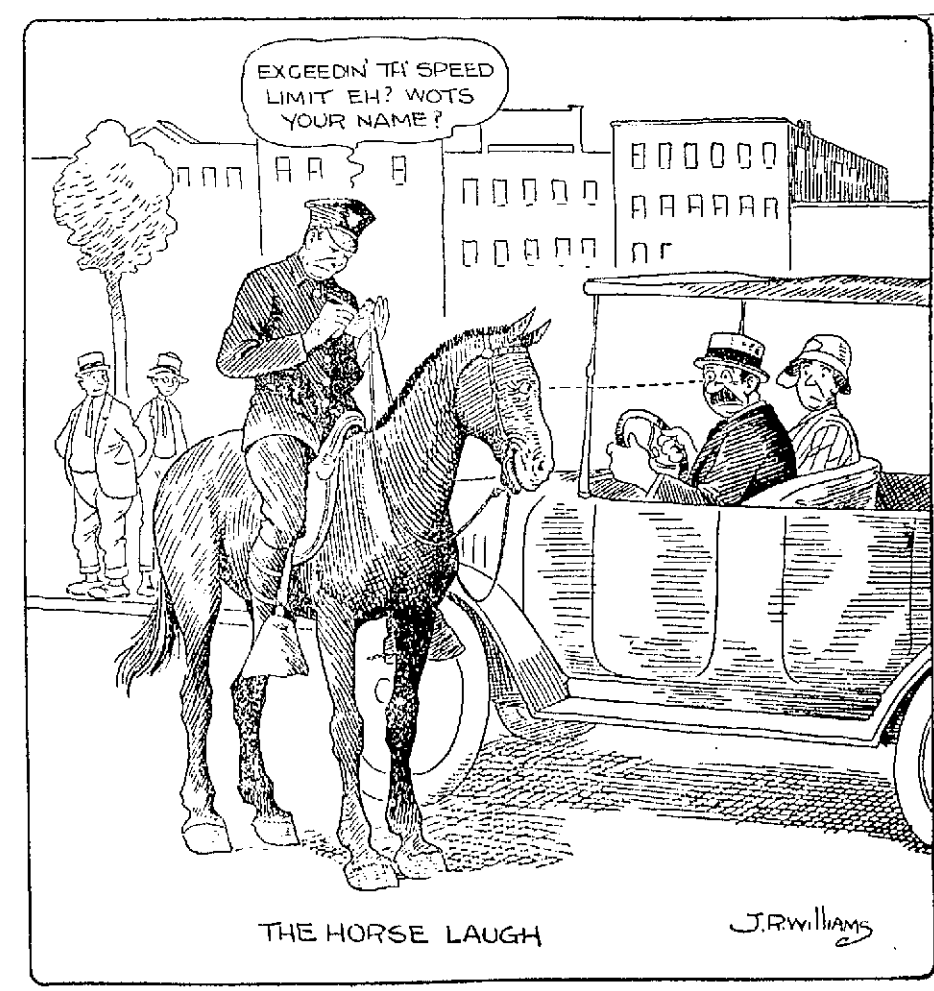

ONE DAY TO BUILD THIS!

LUFKIN, Tex., July 23.—Unlike Rome, the huge tabernacle here was built in a day. Half a day, to be exact. From 6 a. m. to 6 p. m. It was erected for the C. R. L. Vawter Evangelistic Company, which is to hold a series of revival meetings. The tabernacle covers 5400 square feet, and is the largest structure ever to be raised in a day in a little city of only 6000 population. It seats 1100 persons. At 6 a. m. not a "lick" of work had been done. The materials were ready, but actual construction had not commenced. Then, at the stroke of the clock, the workmen pitched in. An hour was taken for luncheon. At 4:30 p. m. the tabernacle proper was completed. Then workmen concentrated in the interior, and placing of seats started. But, say the workers, it was a hard grind!

### FOR The Auto Driver

Prepared by the National Safety Council—Issued by the Massachusetts Safety Council.

No. 15—Clutch Transmission and Differential

The clutch transmits or disconnects the power from the engine to the transmission. It permits the engine to pick up its load gradually.

a. Keep the foot off the clutch unless you are shifting gear. "Riding" or "slipping" the clutch should be discouraged. Unnecessary pressure on the clutch wears the clutch mechanism, makes clutch surfaces smooth, and may cause the clutch to overheat.

b. Clutch seldom needs adjustment except with reference to floor boards. Pedal should have 12-inch clearance in every direction. Safety gear shifting is generally due to clutch not being "thrown out" far enough.

The transmission transmits from the clutch through the differential to the rear wheels. The transmission is a series of gear reductions which provide increased leverage and additional power for starting and climbing hills.

a. Keep transmission well lubricated. Use a good transmission oil or semi-fluid grease. Heavy grease will not circulate through bearings. Oil level can be determined by removing screw plug in side of transmission case. Oil should be renewed about every 500 miles; case should be filled until oil flows out plug hole. b. Gear teeth in transmission are sometimes broken off by throwing in clutch too suddenly, by shifting speeds rapidly when the engine and car speeds are not equal, or by accidentally shifting into reverse when the car is moving forward.

The differential is a set of gears which equalize the power between the two rear wheels when they are going at unequal speeds. When turning a corner, the outside wheel travels faster than the inside wheel. c. Turning a corner on two wheels may damage the differential due to the unnecessary spinning of one of the rear wheels. b. On chain drive trucks keep the two chains adjusted with equal tension; otherwise differential will be worn unnecessarily. c. It is essential that the differential be properly lubricated. Universal joints are used to increase the flexibility of the drive shaft. Usually the drive shaft is in several pieces, joined by universal joints. They permit free rotation of the pieces of shaft even though they are not in an exact line with each other. (Tomorrow—Gearbox, Accident Hazards.)

of next month. He will have complete charge of the Clapp Co.'s real estate and mortgage work in Norfolk county, a district comprising such cities as Milton, Dedham and Hyde Park. Mr. Whelan is not unknown down here as Milton was his home town before he became superintendent of the street railway here.

In speaking about his new position this morning, Mr. Whelan said that he was sorry to leave Lowell. As superintendent of the railway Mr. Whelan was very popular and was given the whole-hearted support of the men. Although he has been very successful in the real estate business here, he feels that the new position offers him greater opportunity and although he dislikes to leave Lowell he can't resist the call to his "old home town."

He has sold his residence at 24 Appleton avenue to William A. Powell of Westford street, who purchased it for occupancy and will move in on Aug. 1.

## LOWELL DISTRICT COURT

### Manslaughter Charge Against Driver of Auto Dismissed

#### —Other Cases

The manslaughter complaint against Leonard Belanger was dismissed in district court today.

Belanger was the driver of an auto that struck four-year-old Lea Glauco on Perkins street on June 30, as a result of which the child later died at St. John's hospital.

A report of the inquest held by Associate Justice Pickman was filed today, in which the court held that there was no criminal negligence on the part of Belanger.

Direct Sentences

Arthur Borvin and Nicholas Kokonacos were each found guilty by Judge Pickman of assaulting John S. Meroux and robbing him of \$120, and they were each sentenced to five months on the larceny complaint and one month on the assault charge.

Meroux testified that he met the two young men in a restaurant and that he bought something to eat for one of them. After leaving the restaurant he was set upon by the pair on Dutton street, punched in the face and knocked down, and the money taken from his trousers' pocket.

The defendants admitted the offenses but claimed that they took only \$24 instead of the amount charged.

Other Offenders

William H. Oakes was sentenced to three months in the house of correction by Judge Pickman in district court today, after his wife testified that he had been on a continual drunk for eight years.

Oakes was before the court last November and at that time was placed on probation. But Mrs. Oakes said that it didn't do any good and she asked that he be sent away.

Thomas J. Brown was given a suspended sentence of three months on a drunkenness complaint, with the understanding that he contribute \$12 each week towards his family's support.

Dennis J. Murphy, on parole from the state farm, will be returned there for failing off the wagon.

Martin J. McAndrews, who was given a suspended sentence Saturday, was before the court again today for drunkenness. Upon his promise to immediately leave town he was fined \$10.

The continued case of Arthur J. Smith, charged with drunkenness and operating an automobile while under the influence of liquor, was called for disposition in district court today and the defendant was fined \$100 on the latter charge. The drunkenness case was adjourned.

John M. Burke, who was with Smith at the time, was fined \$5 for drunkenness.

Clifford Noval pleaded guilty to a complaint of illegal sale of liquor and a fine of \$100 was imposed.

Frederick S. Wedelgrube pleaded guilty to operating an auto without a license and he was fined \$20.

Eugene Doucet, charged with operating an automobile while under the influence of liquor, had his case continued until Thursday.
